Designer: Jessie Luo

Overall happy with the website!

- Really like the navigation bar.
- Love the heading bars with the different shapes
 - Would like you to add it to the bottom of each page, like you did for the landing page.
- The titles of the subheadings don't look fully centered.
- I like the colors
- Make the text size of the artwork description smaller than the body text
- The red text on the purple background is a bit hard to read on the landing page
